Our Most Advanced SafeLink and Bluetooth Technology

Easy-to-understand icons and touch-screen Windows
Pocket PC software will guide you all the way through
setting-up and managing your safes

SAVETECH's unique Bluetooth technology, it makes the
communication between SafeLink and safe become much
easier, reliable and convenient; with the development of
Bluetooth, a new era is created in the whole hotel industry.

All models can select an exclusive **I-KEY (INTELLIGENT KEY)** that cannot be duplicated; service unit allows you to open the safe in case of emergency. The I-key can also download the 124 safe audit trail and print out by computer.
